## LOOKS FAVORABLE TO MAJOR AT 3

BELIEVED GOVERNOR HAS SUFFICIENT VOTES.

## GEORGE B. BAKER IS NATIONAL DELEGATE

Corey Cook Chairman of District Caucus and Anti Administration Meeting.

Special by Telephone.

St. Joseph, March 21.—That Governor Major will be endorsed by the usual political resolution for the entire state administration is the indication at 3 o'clock. The election of a national committeeman and the indorsement for vice president is more in doubt.

The convention was called to order by D. C. McClung, warden of the penitentiary and chairman of the state Democratic committee. A. T. Dunn of Jefferson City was made chairman. After the credentials, resolutions and permanent organization committees had been announced by the various congressional districts, adjournment was taken until 3 o'clock.

The fight was thought to be simplified last night by the provisional withdrawal of Horace S. Rumsey as a candidate for national committeeman after an anti-Major caucus and the entrance of the Anti-Saloon League of Missouri into the fight against the governor.

Mr. Rumsey's provision, however, was that he would quit the race if Senator Stone should be given the place. The attitude of the Kansas City delegation with 129 votes will decide the convention. If Pendergras men vote for Major he will win and a new police board will follow friendly to the "goats."

### Baker and Akers Delegates

George B. Baker of Maryville, and George W. Akers of St. Joseph, were elected delegates to the national Democratic convention by the fourth congressional district caucus in the assessor's office of the Buchanan county court house this morning.

L. C. Cook of Maryville was made chairman of the caucus. Robert Minton of Holt county was elected presidential elector. T. J. Emmert was an unsuccessful candidate for a delegate to the national convention. J. I. Bennett of Andrew and Henry Dillingham of Platte were made alternates.

Henry Hurst of Tarkio was made a vice president for this district to sit upon the platform this afternoon. The representatives from this district on the various committees were named as follows: Judge Charles H. Mayer of St. Joseph, resolutions; E. D. Rucker, Andrew county, credentials; Judge R. E. Culver, permanent organization and order of business.

The two delegates from this district to the national convention were instructed to vote for the nomination of Wilson and Marshall for re-election. No mention was made on the floor of the anti-Major sentiment, but the instruction for Vice President Marshall was made very plain.

L. C. Cook of Maryville was chairman of an anti-Major meeting at the court house in St. Joseph, which was attended by more than 125 from all over the state. A resolution was adopted that it was the sense of the meeting to work in the convention against any indorsement of the governor.

Lowell Campbell of Barnard was the only Nodaway county delegate not present. He was represented by Clyde Perkins. Among those from Maryville who attended the convention were T. A. Cummins, Ellis G. Cook, Arthur Brewer, Fred Yeomans and W. G. Sawyers.

Mrs. C. F. Parker and daughter, Miss Hazel, went to Pickering today, where they will be the guests of the former's parents, Mr. and Mrs. H. T. Wray.

My office will be closed from March 20th to the 26th.

## COMPLIMENTED CAMP NO. 8

W. A. Fraser, Sovereign Commander, W. O. W., Honored Members of Local Order by Attendance.

Two hundred and fifty members of Magnolia camp, No. 8, gathered in the halls last night to welcome W. A. Fraser, sovereign commander, from Omaha. The local members were much pleased by the visit, as it is the first time that the highest officer has ever visited here.

After the initiation of a class and a banquet, served by the ladies of the Woodmen Circle, W. A. Fraser spoke for more than an hour. He reviewed the growth of the order, its resources and reserve of \$28,000,000. He spoke highly of Magnolia camp as being one of the very oldest in the order.

The camp here numbers among its members men in almost every state in the union. Visitors from Rock Port, Maitland and other nearby towns attended the meeting, which was to observe the twenty-fifth anniversary of the founding of the order.

## CHURCHES SHOULD

CONCLUSION OF SPEAKERS AT AD CLUB MEETING.

## TO USE PUBLICITY MORE

Ministers and Other Speakers Urge Inter-Denominational Council to Handle Advertising.

Twenty-five men manifested their interest in the publicity work for churches by attending the public meeting of the Maryville Ad club last night in the circuit court room. L. B. Tracy, president, called the meeting to order. He said that it was fitting that we should begin to consider the great powerful force of advertising as an aid to the greatest institution in the world.

The Rev. L. M. Hale, pastor of the Baptist church, who was accompanied to the meeting by ten of his members, opened the meeting with prayer. In it he thanked God for every means given to us to advance the kingdom and for the opportunity given in the meeting for the discussion of the relation of one of the great forces in the world to the church.

W. E. Jones, former president of the club, read the only formal paper of the evening. It was a resume of articles which have appeared recently in magazines on church advertising. He advised that the minister should not have charge of the advertising usually, but some laymen.

For the minister, like many manufacturers, is so close to his product that he is unable to see its best advertising points. The preacher often fears being thought sensational or seeking publicity also. Jones said this could be avoided by being sure one was seeking advertising for the institution, not the individual.

### Must Co-Operate With Ads.

The speaker also pointed out that publicity and entertainment committees should co-operate with the advertising, as it is a well known rule that a pleased customer is the best ad. Repeat orders are the best, so ads only get a person to come; it is then up to the minister and people to hold them.

Prayer and publicity are the two great forces for good in the world, and the church should use them more. The church must make disinterested people interested. People can get away from the church and the sound of the preacher's voice, but they cannot get away from the daily paper, so the church should use both agencies.

Mr. Hale was called upon by President Tracy for an expression of opinion. He said that the church was missing a great deal of opportunity and power by not advertising. He has always advocated it and said from the pulpit Sunday night in urging his members to attend the meeting of the Ad club, that a dollar spent in advertising by a church comes back more directly and quickly than any other. In his opinion, the increase in the incidental collections alone would make up the advertising budget.

The Rev. William Moll Case of the Presbyterian church, who was called upon next, said that he had never been in any town or city where the newspapers were so cordial to churches and printed so much church news. It was his opinion that the people of Maryville do not appreciate what the papers are doing for the churches.

### Inter-Church Council Urged.

Mr. Case advocated the formation of (Continued on page 4.)

## GILBERT'S ANSWER TO SEEK PROTOCOL

SAYS CHAIRMAN W. B. GEX DIDN'T REPLY TO DIRECT CHARGES.

## ELECTION YET UNSETTLED

Suit Against Directors at Next Term of Court—Printer Tells of Printing Contract Affair.

When asked if he cared to make any comment on the article written by W. B. Gex and printed in The Democrat-Forum yesterday, W. H. Gilbert replied:

"There is very little to say in answer to Mr. Gex, because his letter is no more than an expression of his own personal opinion. He advances no argument that would appeal to any thoughtful man. He does not attempt to answer or deny the figures issued by me, but contents himself with pointing out inconsistencies that do not exist. For instance, I showed in my letter that the association had increased its expenses 30.4 per cent last year, while the business increased but 12.4 per cent, and pointed out that unless expenses were reduced it would lead to insolvency. In this connection I expressed the belief that long before the point of destruction were reached the stockholders would awaken to conditions and cause a change. Such a change could be effected by a bare majority of those voting at any regular meeting. Again I expressed the opinion that the proposed merger could not take place because the law requires a two thirds vote of all the stockholders on such a proposition, and that so large a number could not be induced to vote on any proposition. That means more than \$60 votes are necessary in the latter case, while in the former instance a matter of less than one hundred votes might be sufficient. Mr. Gex seized upon portions of these two statements to show I was arguing on both sides of the question."

How about his comment on Mr. Robinson's letter?

"As to that, let Mr. Robinson answer. I have no doubt as to his ability to take care of himself against a man of Mr. Gex's calibre. This is particularly true in this instance, wherein Mr. Gex is taken at a disadvantage. You know he enlarges upon his loyalty to Maryville and Nodaway county, yet the very day on which he told one reputable citizen he would put forth every effort to bring the consolidated association here, he interviewed another reputable citizen to see if he would buy the Record building."

Did you read the Tribune's introduction to the Gex letter?

"Yes, and there is something that may be really harmful, because misleading. The Tribune speaks of the preliminary voting as indicating the success of the merger, when there has been no voting. The friends of the merger have assigned their stock certificates in blank and mailed them to the secretary. There have been some four hundred of these sent in, and probably a few have expressed themselves as against the change. These certificates and expressions of opinion are what the Tribune calls votes. Under the law, all stockholders who do not vote count as voting against the merger. The required majority is not two thirds of those voting, but two thirds of all share holders. From the urgency of the appeals sent out from the secretary's office, it is likely that most of those favoring the consolidation have already transferred their stock. At any rate, after having secured four hundred of the easy ones, the promoters must secure more than half of all who are left. Personally I don't believe they can do it."

The Tribune points out that because of the new building here, the chances are good to get the association. Let me ask why? The American association pays one dollar per year for the use of three rooms in the Live Stock Exchange building at Chicago. Would they, having control by virtue of their larger membership, move to Maryville to save that dollar? It would cost several hundred dollars per year to occupy their own building. What would the average business man do under like circumstances? Suppose Jim Robinson could get a building for his bank just a little better located than the one he owns, for one dollar a year, with heat and lights furnished? Don't you think he would at once move into the free quarters and rent his own building? Certainly. And that is just what the new association will do.

"The Tribune did tell one great (Continued on page 2.)

WILSON DECIDES ON MOVE AT CABINET MEETING.

## DEFINITE CO-OPERATION

Measure to Be Signed by Carranza and U. S.—Villa Thought to Be Headed Into Trap.

### Special to The Democrat-Forum.

Washington, March 21.—President Wilson decided today upon the formation of a protocol to be signed by the representatives of the United States and the defacto government of Mexico, providing for co-operative movements against Villa. This decision was reached after a long cabinet meeting.

### American Aviator Hurt in Fall.

Columbus, March 21.—A wireless from Pershing to Columbus says that Lieutenant Bowen of the aviation corps was seriously injured today when his machine fell.

It was also stated that Villa was seriously defeated by Carranza forces yesterday.

Villa is said to be marching northwest in the direction of Ninuquie and will walk into the jaws of the trap set by the United States army unless he makes one of his sensational maneuvers and escapes by doubling his tracks.

Villa may be taking his last stand before night.

Washington, March 21.—Acting Secretary of State Polk said that overnight dispatches from United States agents in Mexico indicated that everything was running smoothly.

### No Communication With Carranzistas.

Juarez, March 21.—Communication with the Carranzista forces facing Villa was cut off early today. Headquarters at Gaviña denied that Villa had been killed or captured. No explanation was made concerning the severance of communication with the Carranzistas.

### Village Wiped Out by Villa.

Galveston, March 21.—The town of Delicias, in southeastern Coahuila was completely wiped out by bandits this week, according to reports. It is said more than twenty inhabitants were killed and every house burned. It is not known whether any Americans lost their lives or not.

## IMPROVEMENT FOR CARPENTER

Photographer Has Display Case and Cabinet on Machine.

J. E. Carpenter, photographer, has a new improvement upon his Ford roadster in the form of a display cabinet and chest. The box, with attractive signs on its exterior, was built and added to the machine by Fred Curfman. Each side of the chest contains doors upon the inside of which are show cases for displaying the sample pictures.

The interior of the chest contains boxes for cameras, films and other equipment as Mr. Carpenter specializes in out-door work.

## PRETTY GOOD TRACK START.

Yehle Boys Begin With High Marks Yesterday.

Things look pretty good for track at the Maryville high school after the first real try-outs yesterday. Both Eugene and Ralph Yehle cleared the bar in the pole vault at 9 feet on the first attempt and in their regular clothes. Ralph Yehle did 42 feet in the hop, step and jump. The mark which won last year was 41 feet 6 inches.

## JOHN SHONLEY ANNOUNCES.

## NAVAL BATTLE SEEMS IMMINENT

TORPEDO BOAT DESTROYERS ALREADY HAVE MET.

## ENGLISH AND GERMANS EACH CLAIM VICTORY

Sweden Reports Activity of Both Fleets in Their Waters—Russians Win in Austria and Turkey.

Special to The Democrat-Forum.

London, March 21.—Three German torpedo boat destroyers were defeated in a running fight with four British vessels of the same type off the Belgian coast Monday, according to an official announcement.

This is the first battle or the first sea class in the north in several months. The admiralty announced that the Germans quit their base, but two were hit by shots from the British. Four British sailors were wounded.

### Germans Claim the Victory.

Berlin, March 21.—German destroyers defeated the British destroyers in a battle off Belgium yesterday. The enemy withdrew, according to the announcement of the admiralty.

### Naval Activity Around Sweden.

Copenhagen, March 21.—A number of British submarines were sighted south of Cattegat today. The presence of British warships off the Swedish coast caused a sensation in Sweden. A large flotilla of German torpedo boats passed through The Sound this morning steaming northward.

### Big Austrian Fortress Falls.

Vienna, March 21.—After a gallant defense of six months by the Austrians, Usciecko, on the Dniester river, north of Czernowitz, has been captured by the Russians.

The Austrian war office admitted today that the Russians had also gained a crossing on the Dniester at that point. The Teutonic commander evacuated the town to avoid a useless loss of life from the Russian artillery, which was carrying on a violent attack.

The drive on that fortress is a part of the general offensive on the southern end of the battle front by which they hope to open the route to Bukovina.

### Bad Riots in Ireland.

Dublin, March 21.—Riots resulting from the activities of the Sinn Fein agents broke out in Tallamore today. Three police inspectors were shot by the rioters. Many members of the mob were arrested after the mob was finally quelled.

### German Verdun Attacks Repulsed.

Paris, March 21.—The terrific attacks of the Germans against the French positions northeast of Verdun continued throughout the night but were all repulsed. Having gained a foothold on the eastern part of the wood, the Teutons launched repeated efforts against the French lines.

### Another Turk Stronghold Gone.

Petrograd, March 21.—The capture of Ispahan, an important position, which became the goal of the Russians in their drive toward Kirmanshah, was announced in official dispatches today. The town fell Sunday.

Mr. and Mrs. John Gex of Graham announce the birth of a daughter Tuesday, March 21.

MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED.

If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.  
Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.  
A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.  
Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.  
Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt. 10c a box.

What Others Believe

Answers Carmichael Claims.

To the Editor of The Democrat-Forum: On my return from Wyoming I found the people harvesting good crops of wheat, oats, hay, fruit and the thousand other things that go to make life worth while. Missouri is a grand old state. I have been from the Iowa to the Arkansas line, and I have found that Missouri could be fenced off from the rest of the world and yet live independently. Out around Dwyer, Wyo., the little bumble bees have to get down on their knees to suck the honey from the few flowers that grow.

I went to Wyoming on Mr. Carmichael's judgment, and it cost me between \$600 and \$700 to learn what a good place Missouri was. The more one pays for an education in the school of experience the better the lesson is learned, and, believe me, I paid.

I hauled hay eighteen long, dreary miles, and when I was within 100 yards of my stable, along came one of those Chinook winds and upset hay, wagon and all.

Missouri produces the finest pure bred cattle in the world. The Belows, Ogden and Caldwell herds will prove it for this part of the state. They not only raise fine cattle, but they also raise the feed for their stock. I know of hundreds of farmers that raise more hogs on one farm than all the hogs that can be found in Platte county, Wyoming.

Mr. Carmichael states in his letter to your paper of recent issue that there are seventy families in the Missouri colony. Missourians are found in every state in the Union wherever one goes.

Now, my friends, take warning and do not leave Missouri until you have been shown. I was born and raised in Nodaway county and have been west, over practically all of Wyoming and several other states, and I find the garden spot of the agricultural country is right here in Missouri.

I would rather have ten acres of Nodaway county than 320 acres of the best land near Dwyer, Wyo. Mr. Carmichael receives from \$10 to \$50 per head for every sucker he lands in Wyoming, so naturally he thinks it a great country.

Now, my good people, if any of you want to look for a more promising land, think twice before you allow a land separator to separate you from good old Missouri cash and farm land. With best wishes for The Forum and Missouri, I am,  
JOHN F. McMAHAN.

WOULDN'T TRUST CORK LEG.

Committed Prisoner Would Not Leave and Wants a New One.  
Leavenworth, Kan.—Afraid to trust his decaying cork leg over the bumps and pitfalls of the outside world, G. V. Stamey, prisoner of the Kansas state prison, declined the privilege of being with his parents. Stamey was sent up from Shawnee county in 1910 to serve a sentence of from five to ten years for arson. Governor Capper commuted his sentence.  
As he was preparing to leave the prison to go to the home of his parents in Norton, Kan., he noticed that his cork leg, which he had brought with him when he entered a cell five years ago, was in bad shape.  
Then he decided that he couldn't trust it any longer and turned back. He will wait until the prison board meets again, when he will ask that a new leg be bought for him, as he is without funds.

SORRY HE BOUGHT COFFIN.

At Seventy-nine, Civil War Veteran Thinks It Was a Waste of Money.  
Red Bank, N. J.—William Reid's investment in an ornate coffin and an elaborately bricked in grave—both as a permanent resting place for his own body—looks like money thrown away. He celebrated his seventy-ninth birthday here recently by meeting all his old friends, going about town and proving by every known method that he might be accepted as a gilt edged risk by any life insurance company.

Mr. Reid, who was a soldier during the civil war, purchased the coffin after considerable shopping around. He dug his own grave and bricked it in at White River cemetery that he might not cause trouble to his friends after his death. He said that he didn't expect to compel anybody to haul his body out to the grave for another decade.

ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION.

"Pape's Diapiesin" Fixes Sour, Gassy, Upset Stomachs in Five Minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapiesin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapiesin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapiesin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

losis movement organized in the last ten years is having a marked effect on the mortality of tuberculosis, especially since the death-rate from this disease seems to be declining more rapidly than the general death-rate from all causes.

Commenting on this decrease in the rate from tuberculosis, the Bureau of the Census says: "As a result of a more general understanding of the laws of health, the importance of fresh air, etc., due in part, on doubt, to the efforts of the various societies for the prevention of tuberculosis, there has been a most marked and gratifying decrease during recent years in the mortality from this scourge of civilization. In only a decade—from 1904 to 1914—the death-rate from tuberculosis in all its forms fell from 200.7 to 146.8 per 100,000, the decline being continuous from year to year. This is a drop of more than 25 per cent."

As an indication of the growth of the campaign against tuberculosis, the national association for the study and prevention of tuberculosis shows that in 1905, when the campaign was definitely started, there were in the United States only thirty-nine anti-tuberculosis associations, 115 sanatoria and hospitals, twenty special clinics, no open air schools, and not more than 5,000 people actively interested in the prevention of this disease. At the close of the year 1915 there were over 1,500 anti-tuberculosis associations, 600 sanatoria and hospitals, 450 dispensaries, 800 open air schools, and over 100,000 people actively interested in the prevention of tuberculosis. Besides this, the fundamental truths that tuberculosis is a communicable, preventable and curable disease have been carried into almost every village and hamlet and to millions of men, women and children in a great variety of ways.

The national association for the study and prevention of tuberculosis, 105 East 22nd street, New York City, will gladly send literature on tuberculosis to those who wish it.

A New Era in Corsetry Since Gossards Came

FIFTEEN years ago you had no choice, you accepted your corset attempted to adapt your figure to it, and rarely, if ever, succeeded in doing so. Today over 100 different Gossard models are yours to select from.

Fifteen years ago front lacing was unknown. You strained and lamely did your best to locate your lacing. Today you stand in front of your mirror and see the adjustment. You mould your figure lines each day, retain your youth and safeguard your health.

This season every demand of famous couturiers, both here and abroad and social leaders of every country, is being satisfied with Gossards.

In exclusive style, comfort, long wearing service and price, they are alone, as they always have been. Your Gossard—a perfect corset of this new era of corsetry—is ready for you at your price, \$2.00, \$2.50, \$3.50, \$5.00, \$6.50 and up.

An expert corsetiere will fit you without obligation.

truth in this article. It speaks of me as having formerly held the printing contract, and adds 'Over one year ago his bid for the contract was turned down.' That would be about two months before the bids were called for, and is just what I have contended all along.

I have reason to believe that my bid was 'turned down' some weeks before it was entered. If not, why did the Tribune buy about \$5,000 worth of equipment especially to print that job, and hire men to work on the job about two months before bids were called for? Yes, the bid was 'turned down' 'more than a year ago,' but I am surprised that the Tribune should admit the fact.

"There is but one other point worthy of mention. That is the reference to the 'unsuccessful fight' waged against the administration. Just how does the Tribune know the fight is unsuccessful? The matter is to be threshed out in the April term of court, and those behind the suit firmly believe the fight will end in victory."

## The Lily is a Simple Cream Separator

IF you ever owned a cream separator before you knew the Lily, you will appreciate Lily simplicity. It used to be tight and move that—adjustments that you never felt quite safe in making yourself. Although even a wasteful separator was much better than hand skimming, you were far from satisfied.

Most of those adjustments are now done away with. There is only one place where wear affects the work of the Lily and that is on the hardened steel point that carries the weight of the whirling bowl. And since this point is made of finest tool steel, tempered like a fine razor, you can see that the adjusting will not take much of your time.

Go to the dealer and see this feature and the many others—the simple splash oiling system, the easy operation, the ease of cleaning. The Lily is a real cream separator.

## FEDERAL GAME LAWS ON

STATEMENT UNTRUE THAT THEY  
ARE NOT IN FORCE.

Until Conflicts With State Laws Are  
Adjusted, Prosecution May  
Follow.

Special to The Democrat-Forum.

Washington, March 21.—A misleading statement has recently become current in newspapers of the Mississippi Valley and elsewhere, to the effect that the Department of Agriculture has suspended the enforcement of the Federal regulations under the Migratory Bird Law and by this means has enabled sportsmen, under state laws, to shoot wild fowl the coming spring.

Under the Federal regulations as they now stand, the season on all migratory wild fowl is closed until next autumn throughout the United States. Federal inspectors and wardens are required, and others interested in the protection of wild fowl are requested, to report to the Department of Agriculture all cases of violations of the regulations, in order that proper action may be taken.

The Department of Agriculture has no power to suspend the law or to pardon violations of the regulations. Doubtless the erroneous impression on which the newspaper statements are

based, has grown out of the pendency of litigation involving the constitutionality of the Act of Congress approved March 4, 1913, under which the regulations were promulgated. The lower Federal courts disagreed as to the validity of the statute and the issue was carried to the Supreme Court of the United States. The case was argued in the Supreme Court in October, 1915, but has not been decided. Following the lower court decisions, Congress appropriated money for the purpose of continuing the enforcement of the law. The Department of Agriculture is bound to report to the Department of Justice violations of the regulations if the Supreme Court should declare the law constitutional. All persons should, therefore, be warned of the danger they incur from failure to abide by the regulations.

## JOPLIN WOMAN IS RESTORED BY REMEDY

## EX-KING MANUEL TAKES LIFE EASY

Plays Golf While Portugal Prepares For War.

## LAND SIDES WITH ALLIES.

Former Ruler Apparently Is Not Worried Over Course Republic Is Pursuing—Germany Has Formally Declared War on Portugal, Although a State of War Has Existed.

London.—While former King Manuel of Portugal is playing golf and taking life easy in England, the little republic of Portugal, once his domain, is completing preparations for war on the side of the allies. Germany has formally declared war on Portugal, although a state of war has practically existed between the two countries since the German troops invaded Portuguese Africa in 1914.

Soon after this invasion Portugal sent re-enforcements to her African possessions, and there have been a number of clashes between the German and Portuguese colonial troops.

The total war strength of the Portuguese army is 200,000 men. It is estimated that fully 100,000 soldiers have

Photo by American Press Association.  
EX-KING MANUEL.

been mobilized for some months to be ready for the conflict. It is over a year since the Portuguese government decided to co-operate with the allies whenever the step seemed necessary. While Portugal has been preparing for war for some time, internal political conditions have delayed matters. A peace party has made its strength felt in that republic, but with Germany's declaration of war party lines will be obliterated.

Portugal has an alliance with Great Britain dating from 1703 that requires the Portuguese government to furnish Great Britain with 10,000 soldiers when the latter is at war. While these troops have not been put at the disposal of Great Britain in the European theater of war, the Portuguese have been co-operating with the troops of the allies in Africa.

While the peace strength of the Portuguese army is only 30,000, with 8,105 more men in the colonial army, the government has 230,000 reserves and 871,470 available men for war purposes. The navy of the republic, however, is one of the smallest in the world. It consists of one second class cruiser, four third class cruisers, fifteen gunboats, five destroyers, four torpedo boats and one submarine.

Most of these vessels are of an antiquated type. The Vasco da Gama, the star ship of the navy, has been in service since 1878. It cost \$600,000 and is of 3,030 tons displacement. It is equipped with two eight-inch guns, one six-inch, one twelve-pounder and eight three-pounders. The Vasco da Gama has a complement of 250 officers and men.

Portugal, with the Azores and Madeira island, has a population of 5,937,985 and an area of 35,490 square miles. The population of the republic's colonial possessions in Africa is 8,300,000, and these colonies have an area of 823,334 square miles. The colonies in Asia have an area of 8,933 square miles and a population of 950,000. Portuguese Africa is made up of Angola, the Congo, Guinea, East Africa and some islands.

Many Portuguese have been bitter toward Germany for many years. They have felt that the Kaiser's government has had designs on the Azores and Angola. The war party in the republic has long been enthusiastic to enter the contest on the side of the allies not only on account of the treaty with Great Britain, but on account of the long standing grievance against Germany.

The wealth of Portugal is estimated at \$2,500,000,000. The national debt amounts to \$947,003,000. The revenue of the country is \$81,996,000 a year, with an additional yearly revenue of \$17,186,000 from the colonies.

## There's a Real Advantage in Choosing Your Spring Coat Early in The Season

FIRST, you have the pleasure of wearing a new style garment while it is really new. There is surely pleasure and distinction in being among the first to wear the new models.

Market conditions have made it advisable to choose from early creations, as materials and colorings are superior at the prices.

Then too, you have much longer to enjoy being dressed in the season's smart new fashions—a whole season instead of just a part of it.

It's real economy to buy your Spring Coat or Suit early. The new styles cost no more now than six or eight weeks later.

Our early display of spring coats and suits is a most interesting exhibit of authoritative fashions. There are special models for all ages and all types of figures.

The material employed in the Spring Coats are Corduroy, Gabarine, Serge, Chinchilla, Taffeta and Faille Silks and Novelty mixtures.

The new styles are in black, white, assorted plain colors, mixtures and fancy plaids.

## KANSAS CITY STOCK LETTER.

Kansas City Stock Yards, March 21.  
—Cattle receipts were 11,000 head today, and sales were steady with the close of last week, or 25 to 35 cents lower than a week ago on steers, steady to strong on butcher grades, a quarter lower on stockers and feeders. Killers bought the steers reluctantly, and said prices would be lower later in the week, because coolers are loaded with high priced beef, for which they are receiving offers from retailers of prices lower than cost. Of course, whether or not the price is lower depends on the supply.

Total supply at all points was considerably less today than a week ago, and a moderate run is expected tomorrow, for the reason that a large number of Colorado cattle are here today, and few are looked for from that

quarter tomorrow. The cattle now coming are bringing more than owners expected in most cases, except a few cattle bought too high in the country last week.

Cattle took a good fill today, many instances noted where gains over weights at home were made, which is equivalent to an advance of 10 to 20 cents, with a poor fill. No prime natives were here, but some very well finished steers sold at \$9.15 to \$9.30, which might have made \$9.50 a week ago. Middle class natives sold at \$8.25 to \$8.85. About 60 cars of Colorado pulp and hay-fed steers arrived, mostly at \$8.50 to \$9.10, some at \$8.25, cows in the shipments at \$6.90 to \$8.00. Sixteen cars of Idaho pulp cattle arrived at \$8.30 to \$8.80, bulls \$6.90, a string of Oklahoma bulls brought \$7.15, some Panhandle yearlings to killers \$8.60.

Stockers and feeders sold with more snap today, some well bred range stockers at \$7.70 and \$7.80, best grades of stockers up to \$8.50, and feeders to \$8.40.

In the hog alleys it was a battle for lower prices, with some success in the late sales. Early sales of light and medium hogs at \$9.35 to \$9.45, including light hogs at \$9.45, were steady. Later the market weakened, late sales as much as 10 lower in some cases, top \$9.50, bulk \$9.20 to \$9.45.

Receipts were 12,000 head, and total at western markets was less than a week ago, but the selling end of packing house departments is demanding lower cost. Order buyers are still getting heavy orders from eastern killers, taking 30 per cent of all the hogs received here last week, a condition favoring sellers which nullifies most of the bear efforts of packers.

Sheep and lamb receipts today were 11,000 head, market steady to 5c higher. About 5,000 lambs sold at \$11.30 and \$11.35, highest prices ever paid here, except one drove last week at \$11.30. Other sales ranged from \$10.85 to \$11.25, some medium ewes at \$8, feeding lambs recently at \$10.60, bought for shearing. Prices are steadily working upward, and the end is not yet.

## THE GREAT KIDNEY MEDICINE FULFILLS ITS MISSION

I was afflicted with Bladder trouble. I suffered such great pain that the doctor had to take my urine. After the doctor had treated me for two weeks, I did not get any better. Remembering that a few doses of Dr. Kilmer's Swamp-Root completely relieved my mother-in-law, after all the doctors who were called on her case had failed to do her any good, I asked my husband to get me a bottle of Swamp-Root, which he did, and I took it and threw the doctors' preparations away. Because immediately after I started taking Dr. Kilmer's Swamp-Root I was greatly relieved. My husband was so pleased he said I should take one dozen bottles of Swamp-Root, but by the time I had taken seven bottles I was completely restored to health. That was six years ago, and I have not taken any medicine since. My weight is 195 pounds, have three children, do my own work in a house of twelve rooms, and keep boarders.

Very truly yours,

MRS. ANNIE BAUGHMAN,

657 Newell St., Barberton, Ohio.

Personally appeared before me this 19th day of December, 1914, Mrs. Annie Baughman, who subscribed the above statement and made oath that the same is true in substance and in fact.

W. A. MORTON,

Notary Public.

Letter to  
Dr. Kilmer & Co.,  
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Maryville Daily Democrat-Forum. ## CHURCHES SHOULD

(Continued from first page.)  
an inter-church council and the concerted advertising of the churches similar to that in the Kirksville Express exhibited in the meeting. Each Saturday church ads are grouped around news of the church and attractive invitations to attend church. He sees in all church advertising the grave danger, however, of giving it the atmosphere too much of an entertainment bureau.

The Rev. G. S. Cox of the First Methodist church said that he believed firmly in church advertising, and did not do one-tenth as much of it as he would like to do. He commended the suggestion of Mr. Case that the churches federate in the matter of advertising. He said that he personally liked news much more than display ads. He believed that they were read most.

Fred Hull answered this by telling of the checking and cross checking of results from advertising by those using thousands of dollars worth of space and the fact that national advertisers prefer display ads to readers.

Dan R. Baker said that this was an advertising age and that the church should get into the game and pay for their publicity just what it is worth. He dwelt upon the tremendous power and influence which the newspaper has.

A round-table discussion was held in which most of those present took part. During this, Mr. Case pointed out that one instance of joint advertising was being carried on at this time by the Union of Young People's Societies, which is conducting a definite weekly campaign of publicity for their Sunday evening meetings.

## PRAYERS CURE AN INVALID.

Healing of Seventy-year-old Pennsylvania Man Regarded as a Miracle. Greensburg, Pa.—Walter McCluckie, seventy, for sixteen years a helpless invalid, is able to walk again, and his recovery is declared to be a direct answer to prayer.

He is a member of the Youngwood United Brethren church. Recently a series of cottage prayer meetings was held, and at Mr. McCluckie's suggestion it was arranged to pray for his healing. The Rev. John Watson, pastor of the church, with twenty-five members, went to his home. Mr. Watson read from the third chapter of Acts, where it is recorded that Peter and John caused the lame man to walk, and from the fifth chapter of James, which declares, "The prayer of faith shall save the sick." The minister and others followed with prayers for Mr. McCluckie's recovery.

The prayers finished, Mr. Watson said, "Let us rise and sing 'Praise God From Whom All Blessings Flow.'" To the astonishment of all, Mr. McCluckie rose with the others, joined in the singing and then walked about the room. His recovery is regarded as a miracle.

## \$50 FOR SEVEN WINKS.

Following a Custom of Greece Looked Like Mashing Out in Missouri.

Kansas City, Mo.—George Stamatois, twenty-six years old, 510 Main street, has not forgotten the customs of his native Greece. There it seems to be the fashion to wink at any woman you want to become acquainted with. The Greek custom brought Stamatois to grief in said Kansas City.

Stamatois entered a department store the other afternoon. He winked at six pretty girls to no avail. He winked at a seventh, who promptly seized him by the arm, showed him a store detective's star and escorted him to a crossing patrolman.

Stamatois answered a charge of "mashing" before Justice Charles Clark, acting judge, in the north side court here soon after.

"That winking trick's a favorite over in Greece, judge," Stamatois said. "That's the way we meet all our nice women. I thought it was all right here too. I've got to show my appreciation of the girls some way."

"That's a poor way," Judge Clark answered. "The wink is not favored in Kansas City. You're fined \$50."

## WITH DONKEY AND DOG WALKS 3,400 MILES

Price Wins a Wager by a Long Tramp.

Victoria, B. C.—Edward P. Price does not wear medals in recognition of a world's record tramp, neither is he the author of any "Travels by Foot" tales—not yet—but he has made something of a record for stamina and is now hopelessly a victim to a relentless desire to walk every highway which may be casually named in his presence. He has walked from Chicago to San Francisco in a roundabout way, a distance of 3,400 miles. He does not claim that there is anything remarkable about that fact alone, but the circumstances of the trip make a good story.

The first consideration is the fact that Mr. Price at the beginning of his tramp was a tenderfoot.

The Price party, for he did not travel alone, was essentially a tenderfoot group. Perhaps the most experienced member was Bunny, a donkey whose eight years had at least taught him caution. Another member was a collier dog named Prince, which is now much more than mere dog to Mr. Price, and another thing which does not appear in the log of the journey, but upon which he admits the successful conclusion of the undertaking largely depended, was the taunts of Price's friends in Chicago.

Price left Chicago in midsummer, 1914, traveling westward along the Lincoln highway. The tramp was the result of a wager and was to be made entirely on foot with the consideration that the conditions would not be fulfilled unless the journey was finished with both of his four footed companions. He insists without a blush that every inch of the journey was on foot. The certified statements of the mayors of the various cities along the route form the credentials.

Starting without money, the commissariat was provided entirely by a gun and fishing tackle and the proceeds from singing at the show houses along the way. The camp equipment, including provisions, amounted to 100 pounds, and this was Bunny's burden.

## Hid Over \$7,000 in Hut.

Cedar Falls, Ia.—More than \$7,000 was found hidden in the hut of George Pound, eight miles north of here, when the administrator of his estate made an investigation. Pound died suddenly and was supposed to have left little money. Twenty years ago he lost more than \$5,000 in a bank failure and thereafter never trusted banks.

## Gets a Civil War Letter.

Bangor, Cal.—L. E. Cole of this town received a letter recently written to him by his brother on Dec. 2, 1864. At that time the writer was a soldier in the Union army, and he tells of the chase into Mississippi after General Price's command. Where the letter has been for the past half century is a mystery.
